THE HIGH SCHOOL BAND. Chicago, Oct. 17.—Some weeks ago I vrote Mr. McAndrew, superintendent of

schools, asking permission for the Hyde fers to Chicago's censors as being into Park High School band to play at our prehensible. Armistice day services in memory of two of our former comrades, one of whom was a former Hyde Park pupil. Hiram the Loomis, principal of Hyde Park, is to make the address of the day, and because of our departed buddy's connection. with the school we wanted to have Hyde Park participate as largely as possible

n the program.
Yesterday I received a letter from Mr.

Bogan, assistant superintendent of schools, in which he said:
"The furnishing of music at public exercises by high school bands brings them in competition with commercial or-ganisations. It is, therefore, the policy of the superintendent, where such competition exists, to refuse permission for high school bands to play. It is with regret that I advise you that permis

cannot be secured in this case."

I was warned before making this request that the unions strongly opposed the playing of school bands at ceremo-nies of any kind, but I did not think it essible that Mr. McAndrew's fighting totch blood would permit his intimidation to such an extent that he feared to F. B. MARSHALL.

Vice Commander, Eston-Priddy Post, American Legion. THE SEX OF CRIM! Chicago, Oct. 16 .- Your Mr. McCutcheon was mixed up on his "Crime and Politics" cartoon. He had crime femi-nine and politics masculine. He will realize upon reflection that crime largely masculine, while politics, at the present time, is feminine. When politic was masculine it was able to control crime, but the women and their men associates who control politics today are scared to death of a criminal

AN OLD-TIMER. THE THIRD TERM. Riverside, Ill., Oct. 16.—I agree thoroughly with Mr. Lee in pointing out the inadvisability of granting Mr. Coolidge another term. All precedent is against it. If not a theoretical third term, another succession would be an actual three terms of service. Washington and the late T. R. refused, or were denied, more than two terms and, assuredly, in a nation of this size there are plenty of able men, talented and experienced enough to hold down the President's job

without an approach to Cæsarism.

J. H. B. advises us that our citizens are too liberty loving to permit the esablishment of a dynasty. Ho! Hum! After seeing the citizenry have the eighteenth amendment put over on them and being marched away to the draft have little faith in their revolt against oppression. They are not scaldic heroe o take a buffet from the gods and return it. As to Mr. B.'s argument about continued prosperity, I believe that prosperity exists only in the mind of THE UNE. Let Mr. B. make a survey and see whether conditions appear very prosperous. For '28 it's Cal and calamity-calamity in the shape of Al Smith and the Democrats. ANTI-CAESARISM.

THIS tract of land, located on the West Coast in one of the most attractive sections of Florida, is offered at a price that is considerably less than is asked for property of a similar nature, most of which is not so advantageously situated.

To the south is the famous resort city of St. Petersburg, and on the east is Tampa, the rapidly growing metropolis of the West Coast. It adjoins the city limits of Tarpon Springs, noted as a resort and fishing center, and is only three miles north of the Tampa Shores development, one of the most successful on the West Coast. The West Coast Jockey Club is now building a million dollar race track within two miles of the property.

Its accessibility is unexcelled. The Atlantic Coast Line and Seaboard Air Line Railways run through the property and the West Coast Railway, now under construction, will also pass through it from north to south. In addition it is on the route of the new Interurban Line from Tampa to Tarpon Springs. Several paved high-ways connect the property with Tarpon Springs, Tampa Shores, Clearwater, Tampa and other points in Pinellas and Hillsboro counties.

It has 234 miles of water front on beautiful Lake Butler, one of the largest fresh water lakes in South Florida, affording fine fishing and boating. The Anclote river, which is navigable through Tarpon Springs to the Gulf of Mexico, runs through the northwest portion of the property. The land is high and rolling and is ideal for the growing of cityus fraise and all kinds for the growing of citrus fruits and all kinds of winter vegetables. There is also a fine location for a town-site on Lake Butler, already provided with paved roads.

The location and surroundings make possible an immediate opportunity for opening such a town-sité and subdivisions at prices that assure

SPAULDING & CO. -Jewelers and Silversmiths "Worth While Gifts at Reasonable Prices"

Nothing Ever Takes the Place of Sterling Silver

SILVER is one of the foremest mediums for the expression of beauty of line and form. Unlike china, silverware does not break; unlike fabric, it does not wear out or become moth eaten; unlike paintings, it does not fade. Well designed and substantially made it never goes out of style; it is always beautiful. We are gratified that so many GORHAM Productions find place in our collection of Silverware - for the name "GORHAM" is a synonym for that which is worthy in silversmithing.

> GORHAM Flatware with **GORHAM Productions** for the table service and for decorative purposes provide WORTH WHILE GIFTS for the Wedding or Anniversary

Selections of GORHAM Silverware can be made "at Spaulding's" from an extremely comprehensive stock at prices which are consistently reasonable

The New Custom-built PIERCE-ARROW COACH

and other PIERCE-ARROW closed bodies

Beginning October 14th, we will display the latest work of Pierce-Arrow designers, craftsmen and body builders at our Michigan Avenue showrooms.

Of especial interest is the new Series 80 Custom-built Coach—the car that has set a new record in both popularity and sales among finer cars.

In this custom-made coach is offered the most noteworthy example of what Pierce-Arrow experience and integrity can produce. From the now widely proved Series 80 chassis to the Pierce-Arrowmade aluminum body, with its limousine interior, it is Pierce-Arrow. Yet the moderate price and almost unbelievably

low maintenance expense make it one of the most inexpensive closed cars the average family can own. See this and other distinctive Series 80 models during this exhibition, as our guests.

Two noteworthy exhibits will be worth your attention. One, a beautiful Judkins Coupe on the Series 80 chassis; another, a skeleton of the Nories 80 coach body, showing the white ash wheel work and aluminum body and other features of Pierce-Arrow building.

We invite you also to inspect the luxurious body work of Pierce-Arrow's larger car, the Series 33 Dual-Valve Six. Feel perfectly free to come. No obligation will be incurred.

Are you tired in the morning?

BE warned! Chronic colds, indigestion—dizziness—headaches—these are almost invariably the results of blood starvation—anemia.

Night time is old Mother Nature's repair time—you should wake up in the morning full of energy, eager for the coming day. If you are tired, listless, it means you are in a generally run-down condition—ready prey for almost any wandering germ.

For more than thirty years, physicians have prescribed Gude's Pepto-Mangan as the sure way to effect permanent cures. They know that its revitalizing iron and manganese content is quickly assimilated by the blood stream and is at once distributed to every partof the body, renewing its latent vigor. If the blood is rich, red, energizing—good health will result.

All druggists sell Oude's Pepto-Mangan in liquid or tablet form. Start today!

STATEMENT

to the people of Chicago from BALABAN&KATZ

Balaban & Katz keenly regret the publicity attendant on the showing of the picture, "Her Sister from Paris," at their Chicago Theatre. They do not feel that either the picture or the theatre deserved it.

The incident was mortifying to us because of its reflection on our intentions and policy-and because we feel that the action of the authorities was unwarranted.

The entire staff of Balaban & Katz, composed of thirty-two experienced executives, viewed this picture months before it was shown. Their unanimous opinion was, that it was a most delightful comedy, with a clever and unusual plot and splendidly acted. Not a person in the group even dreamed that there was anything in the picture that would cause a permit to be refused. They never considered for a second that such a thing waspossible.

Two juries in the Superior Court, to whom the picture was submitted, unhesitatingly approved it. Motion picture critics of every Chicago newspaper reviewed the picture, praising it highly and seeing nothing objectionable in it. Yet, in order to be more sure, we distributed ballots to the thousands who came to the Chicago theatre. Out of 10,000 votes cast, 9,949 declared that the picture was innocent of the atmosphere ascribed to it.

Many of our last week's patrons assumed that the whole affair was "a clever publicity stunt." They saw the picture, found nothing offensive in it and naturally came to that conclusion. We detest publicity of that character. The gain could only be temporarythe harm would be permanent. These theatres were built for the generations to come and their growth must and will be healthy.

We saw no evil in the picture. There was no evil in it. And 9,949 citizens of Chicago said so.

> We have worked long and hard to earn the respect and good-will of the people of this city, and have reinvested millions of dollars to perpetuate high-class entertainment and the most beautiful theatres in the world.

Look Out for Film!

(Just run your tongue across your teeth and you'll feel it)

That's what makes your teeth look "off color." That's what invites decay and gum troubles

FREE 10-Day Test Send the Coupon

Maybe your teeth are gloriously clear, simply clouded with a film coat. Make this remarkable test and find out.

Old methods fail to remove it successfully. Beneath it are the dazzling white teeth you envy. Make this remarkable dental test-you may have beautiful teeth and not realize it.

THE test that's offered here has been made by thousands with remarkable results. Authorities pronounce it the most unique of all dental methods.

You want clear, beautiful teeth and firm, healthy gums. You can have them-quickly. This new way removes the basis of "off color" teeth, the source of most tooth and gum

In a few years, largely on dental advice, it has changed the tooth cleansing habits of the world. In justice to yourself, use the coupon below. A 10-day test will be sent you.

It removes that stubborn film, the enemy of teeth and gums

Run your tongue across your teeth, and you will feel a film . . . a viscous coat that covers them. That film is an enemy to your teeth-and your gums. You must remove it.

It clings to teeth, gets into crevices and stays. It absorbs discolorations and gives your teeth that cloudy "off color" look. Germs by the millions breed in it, and they, with

tartar, are a chief cause of pyorrhead Tooth troubles and gum troubles now are largely traced to that film. Old-time methods fail in successfully combating it. That's why, regardless of the care you take now, your teeth remain dull and unattractive.

Whitens Teeth-Firms Gums

Now, in a new type dentifrice called Pepsodent, dental science has discovered effective combatants. Their action is to curdle the film and remove it, then to firm the gums.

Now what you see when that film is removed—the whiteness of your teeth-will amaze you.

Ordinary methods fail in these

Thus the world has turned, largely on dental advice, to this new method.

A few days' use will prove its power beyond all doubt.

CHARLES M. MEREDITH, Editor Quakertown, Pa., Free Press, says:

"The country weekly newspaper is acquiring more and more prestige since a majority of publishers devote their space to local events with little or no reference to happenings in China, Italy,

"The space that was formerly given to these subjects is now given to Local Events, plus news letters from five to thirty nearby towns. The result is that no literature on earth is more generally and intensively read than the country newspaper.

"I think the fact that when the Free Press comes out on Thursday nights the town and country people stay home and read it, is a tremendous tribute to its news value,"

AY "BAYER ASPIRIN" - Genuine s you see the "Bayer Cross" on tablets, you are not ing the genuine Bayer Aspirin proved safe by mil-and prescribed by physicians over 25 years for Lumbago Neuritis Headache Rheumatism Toothache Neuralgia DOES NOT AFFECT THE HEART

Instinctively you look where you're walking!

"HEADS UP!" "Look where you're going", and other similar cautionary expressions are more prevalent today than ever, and as a result you instinctively look where and upon what you are walking.

Perhaps you have an attractive shop in a desirable location. Your furniture, stock and fixtures may be of the finest; but one thing is certain, the appearance of the floor cannot escape the eye of the customer who enters your store. He must look where he is walking.

If the floor of your store is one of the modern types of Blabon's Lineleum, it is a real asset to any establishment, because if properly installed and cared for thereafter, its appearance says: "Clean! Sanitary! Quiet! Dignified!"

Hazel H. Adler, author of

books on interior decoration, gives valuable sugges-

tions on harmonizing

furniture and draperies

with walls and floors, in our 36-page book, "Planning the Color Schemes

for Your Home", handsomely illustrated in full

colors. Sent anywhere in the United States upon

receipt of 20 cents.

Laid over old or stained wood floors, a smart linoleum design imparts the charm of restored newness, and at the same time affords a sanitary, smooth, warm, comfortable and easy-to-clean floor.

There are many attractive patterns among the Blabon Moulded Inlaid, Marble Tiles—beautiful imitations of pearl and black marble—Parquetry effects and two-toned combinations in soft colorings that are particularly suitable for floors of stores and offices.

The modern method of cementing linoleum down over builders' deadening felt insures water-tight seams which are practically invisible, and adds much to the beauty and permanency of a Blabon floor.

Ask for Blabon's Linoleum by name. It is sold by good home-furnishing and department stores. Our illustrated booklet, "The Floor for the Modern Home", sent free, upon request.

FOUR REASONS why Murad is the World's Finest Cigarette

(FRAGRANT)

It is Nature's caprice to deliver her choicest aromas and fragrances in small packages. To the tiniest leaves and petals, she bequeaths her most exquisite perfumes. So to the Turkish leaf-one hundredth the size of a domestic leaf-Nature gives her rarest nd finest tobacco "bouquet."

(COOL)

A leaf of domestic tobacco is coarse, thick and fibrous. A Turkish leaf is sheer, tender and silky. Obviously, it requires less heat to burn the latter. Turkish is by far the coolest smoking of all tobaccos because it requires less draft to keep it burning-and hence brings less heat to the lips.

{DISTINCTIVE}

The taste or flavor of Turkish tobacco is not duplicated by any other tobacco in the universe. Like the perfume of the hyacinth or the piquancy of mint, MURAD's taste is exclusively its own. Many smokers say, "You can tell a MURAD in the dark"-or identify its aroma, blindfolded.

(MILD)

The coarser the leaf, the stronger the smoke. The tobacco that is "heavy on the vine" is "heavy on the nerves." On the other hand, refined leaf makes a refined smoke. It is the silky delicacy of the MURAD leaf-the choicest Turkish-that makes it the gentlest smoke-caressing to throat and taste.

The bond business has its law of "relativity"

"I AGREED to buy some bonds from my wife's brother," an investor told a Compton salesman. "He doesn't know much about securities, so I had him leave a list of what he had. Help me pick five good ones."

No matter where else you may buy bonds, you get, as a Compton customer, all the help that Compton can give you to keep all your holdings suited to your needs. That is merely incidental to service.

Here is something important. Compton salesmen do know securities. They are chosen for ability only. Their advice is grounded upon thorough training in the Compton school—and reflects the judgment of an organization with a thirty-eight-year-old national reputation for unusual service in selling sound securities.

Men are supposed to desire riches, but one might deduce from the run of the news that there is nothing they are more afraid of than wealth. The nervous fear of production—inherited from the ages of powerty before the from the ages of poverty before the fallacy that industrial crises are the out in the prints every day.

With Europe suffering because of un der-production, M. Britain, which lifted itself out of the morass of the post-Napoleoni period by an orgy of productive energy, eems to fear nothing so much as letting comebody work at top speed.

We find a trace of the same psychological ere in the never ending talk of "overdvelopment of plant." The opinion was ad been a vast deal of exaggeration over-development of plant consisted of obsolete junk or unadaptable war struc-ures, was the belief back of that guess. Mr. George E. Roberts has done a grea service by showing that this is true of the steel industry. Current estimates of plant capacity, upon which the rate of production in proportion to capacity is figured, are being revised. Steel production in fact calls for a reserve of plant. The same is true in other lines.

"The real measure of a nation's effiiency is the per cent of its people who can be spared in a year from the work which is necessary to maintain the peo-ole, and bring them out at the end of the year as well off as they were at the beginning. I guess that 30 per cent of the American people are busy adding to the capital equipment of the country.
The thing is a progressive unstable equilibrium, because the more people who can be spared for plant construe tion in one year, the more can be spared for next year-while the number required to keep us even decreases.

This Common Stock Gives You a Share In More Than 100 Successful Companies

Cities Service Common stock—yielding at its present price over 9%-is one of the most attractive investment opportunities in the market today. This safe, seasoned security has behind it the combined earnings of more than 100 public utility and petroleum subsidiary companies. The Cities Service organization has total assets of over \$553,000,000.

Cities Service Company's steady income from public utilities alone is more than enough to pay the interest on its entire funded debt and dividends on all outstanding Preferred and Preference stocks. It is apparent, therefore, that the balance left from utility earnings, plus the large earnings from the important oil business of the Cities Service organization, are applicable to Common stock dividends.

The net earnings applicable to Common stock and reserves for the year ended July 31, 1925, were \$10,500,000, which was equivalent to 14.21% on the Common stock outstanding.

With conditions in the oil industry steadily improving and with both the oil earnings and the public utility earnings of Cities Service Company on the upgrade, as they are at present, the position of Cities Service Common stock was never sounder.

At its present price—to yield over 9%—it offers an unusual opportunity for the farsighted investor.

Superior Elevator Property

BUFFALO, NEW YORK

First Mortgage Twenty Year 61/2% Sinking Fund Gold Loan

Interest payable semi-annually April I and October I. Principal and interest payable at the principal office of the Trustee in Buffalo or at the office or agency of the Corporation in New York City. Coupon in form and in denominations of \$1,000 and \$500, registerable as to principal. Redeemable at the option of the Corporation as a whole or in part, on any interest date on 30 days' notice at $10^{7}/2\%$ during the first five years, and thereafter at 1/2% less each succeeding year. or part thereof, to maturity, plus accrued interest in each case. Pennsylvania Four Mills Tax, Connecticut Four Mills Tax, Kanssa Two and One-Half Mills Tax, California Four Mills Tax, Maryland Four and One-Half Mills Tax and Massachusetts Six Per Cent Income Tax refundable to holders resident in these States upon application to the Corporation, as provided in the mortgage. Interest payable without deduction of normal Federal Income Tax up to 2%. BUFFALO TRUST COMPANY, BUFFALO, N. Y., Trustee

The following is taken from a letter by Mr. Levi S. Chapman, President of the Superior Elevator Corporation:

Property and Business The Superior Elevator is situated in the City of Buffalo on a tract of land owned in fee covering about three and one-half acres fronting 940 feet on the Buffalo River. In addition, through advantageous leases with the Buffalo Creek Railroad Company, the Corporation controls 1,041 feet of river front and docking facilities adjoining its property, or a total of 1,981 feet of water frontage having a uniform depth of 23 feet. These properties are served by four tracks of the Buffalo Creek Railroad which connects with all the imporfalo Creek Railroad which connects with all the impor-tant trunk lines entering the City of Buffalo.

Superior Elevator Corporation, incorporated under the laws of the State of New York, has acquired this property. The Corporation is engaged in the business of elevating, storing and transferring grain from Lake steamers to canal boats and railroads, and the mortgage provides that the Corporation shall not engage in trading in or marketing of grain. Charges for the elevating of grain are regulated by the laws of the State of New York, and by the Interstate Commerce Commission. These charges are largely collected through the railroads and other common carriers by including them in their freight bills.

Security The Loan, in the opinion of counsel, is secured by a direct first (closed) mortgage to Buffalo Trust Company, as Trustee, on the land and buildings, owned in fee by the Corporation. The title to the property is insured by the Buffalo Abstract and Title Company of Buffalo. The Elevator is protected by insurance against fire, lightning and explosion to the amount of \$2,100,000, and the Corporation also carries towards and liability insurance.

The land, buildings and equipment have recently been appraised by independent appraisers as follows:

Total Valuation\$3,258,000

Legal for Trust Funds On the basis of the above appraisals this Loan, in the opinion of counsel, is legal for the investment of trust funds under the Laws of the State of New York.

Earnings The earnings from the operations of the Superior Elevator for the year ended December 31, 1924, were:

Net Earnings available for interest and reserves . .\$289,168

Maximum annual interest charges on this Loan .. \$136,500 The average annual net earnings available for interest and reserves for the four year period ended December. 31, 1924 amounted to \$252,928, although the capacity of the Elevator in 1921 and 1922 was only 1,600,000 bushels; and in 1923 and 1924, 2,600,000 bushels. Present storage capacity is 3,700,000 bushels and the elevator is capable of handling 45,000,000 bushels

Sinking Fund A sinking fund is provided through the operation of which it is estimated that more than 62% of this Loan will be cancelled by

Management Mr. Charles H. Williamson, who has been active in the management of the Superior Elevator for many years and enjoys a reputa-tion as one of the most successful grain elevator experts is operating and managing this property.

All legal matters in connection with this Loan were under the supervision of Mesers. Earle & Hoar, New York City. Earnings audited by Mesers. Genez and Greenway, Public Accountants, New York City. Appraisals: Land by Mr. Fenton M. Parke, President of Parke, Hall & Co., Buffalo: buildings and equipment by A. E. Baxter Engineering Company, Buffalo.

An Important Industry— A High-Grade Preferred Stock

THE remarkably widespread use of automo-biles in the United States assures a huge yearly consumption of tires. Miller "Geared-tothe-Road" cords, highly regarded by motorists, are in continuous and growing demand.

The rubber industry went through many vicissitudes from 1920 to 1922. But Miller Rubber-Company survived that trying period without the necessity of issuing bonds. And today, with no funded debt, the Company has a larger surplus than at any other time in its history.

Because of its successful record, favorable earnings and stable outlook, we regard MILLER RUBBER PREFERRED STOCK as an unusually attractive investment.

We have prepared a circular describing this security, and a comparative chart analyzing the progress made by the principal rubber companies. We shall be glad to send these on request.

Foreigners are bearish and short wheat futures in Chicago and it is not to be expected that they will change their tone so long as they have wheat to buy from foreign countries. This is the view taken by the 82½ trade here. S. C. Harris says: "In the long run if we have a surplus of wheat our prices are likely to readjust more closelys to a world's parity. This makes us bearish on any wheat for a long pull. But so far as Chicago December is concerned the short side is hazardous owing to the small stocks and inis hazardous owing to the small stocks and inother domestic positions under prevailing re-lationship." ability to draw additional supplies from Reports from Vienna say wheat prices con

Real Estate Bond Salesmen An Important Message to

1.984

Are you able to give your clients the definite assurance of safety that they desire and demand or are you meeting sales resistance tha tis hard to overcome?

The straight-forward, absolutely unconditional guarantee of Forman Bonds by a leading independent insurance com-pany gives investors what they want. The phenomenal increase in our sales volume and a stratling increase in the average amount of individual sales proves an unprecedented public confidence in these bonds as providing the very utmost in investment safety.

The increase in the volume of our business makes it necessary for us to add to our sales staff a number of first class salesmen, both for city work and to travel Illinois and adpjoining states. If you are a high-grade, experienced bond salesman of proven ability, we shall be glad to discuss with you in confidence the unusual possibilities and opportunities that this proposition offers.

Attention: Manufacturers of Automotive

Equipment Here is an opportunity to add an unusually desirable and fast selling automo-bile accessory to your line. Will sell outright, tools, die, stock in hand, sales helps, patent rights, etc. Now in quantity production. Can be taken over and started in sales and production without delay.

Product has universal appeal in field where demand is already created. Made for all cars. This established and responsible manufacturer will sell because the product does not harmonize in its nature with the re-mainder of his line and requires, for him, a sep-arate sales organization.

Straus Financing in San Francisco

SAN FRANCISCO! In 1776 a forgotten, remote little Spanish military outpost and Franciscan Mission, asleep in the California sunshine . . . Today "Queen of the Pacific", with the Golden Gate opening out to the shipways of the seven seas; known everywhere as one of the great cities of the world.

Such is San Francisco. The story of her past is told in words of romance—Gold and Hazard and Courage; and the men who made the city are those the world delights to honor -the Explorer, the Pioneer, and the Builder.

The spirit of the San Francisco of today is still the spirit of the Forty-Niners, but the city of 1925 dates in large part from the great fire. Coming to the Pacific Coast as the dauntless San Franciscans were yet engaged in the rebuilding of their city, S. W. STRAUS & CO., with decades of experience in financing building construction, has mobilized the money of tens of thousands of investors, all over the United States, to aid in this city's development.

A score of well known San Francisco buildings, some of them pictured above-downtown office structures, hotels, apartments on Nob Hill and like exclusive sections—representing many millions of dollars, testify to the part Straus financing has played in the city's reconstruction.

In San Francisco, as in other great cities through-out the country, the Straus Organization has selected, with the judgment born of years of ex-perience, those strategic locations in the path of the city's progress, where solid values and certain earning power assure sound investments. Straus Bonds, backed by San Francisco security, have been sold to investors in every State of the Union, thus providing at the same time material aid in the building of this city and safe investments for the surplus funds of the people.

We have prepared a booklet which tells how the STRAUS PLAN benefits investors, builders and communities, and why it always has successfully protected investors from loss. It will interest you and will be sent you for the asking. Simply request
